

We are looking for two resident advisers for Wisteria (Heverlee)

Wisteria is Student Services' new Residence Hall. This completely renovated building is situated in the park of the "Bijbelinstituut", on the Sint-Jansbergsesteenweg in Heverlee. Wisteria will open its doors early in April 2012 and will accommodate about 190 tenants. Residence Management will have two resident advisers living there.

As resident adviser

- you create an agreeable living atmosphere in the residence. But you are not the sole responsible: the people living in the house also have a part to play.
- you develop a working relationship with the hall representatives. You regularly organize house meetings that are open to everyone living in the residence.
- you are well informed yourself and you keep your inhabitants informed about all topics and activities concerning life and living in a residence. You support all initiatives of your inhabitants that promote the communal spirit, the internal communication and the functioning of the residence as a whole.
- you have an eye for the safety in and around the residence. You take care of minor problems and when necessary you can refer people according to specified procedures.
- you collaborate with the inhabitants on making student life sustainable
- you take an active part in the "residentendagen" that Residentiebeheer organizes every year and you participate in the open houses for prospective inhabitants.
- you live in a room, studio or apartment in the residence. You are often on hand in the residence and you have to be available for the inhabitants on a regular basis. You pay a limited amount of rent and, depending on your relationship with the university, you can collect a volunteers fee.
- you understand and speak Dutch.
- you get an appointment until the middle of July 2013. This appointment can twice be prolonged, each time for 12 months.

If you are interested, send your **resume with photograph and application letter** (max. 1 A4 recto verso for the letter) to els.bruyninckx@dsv.kuleuven.be no later than **Friday, February 17th**. After a preselection based on the submitted documents, there will be an interview with the selected candidates.

For more information you can
