

THENAPA

DISSEMINATION YEAR

SLOVAK REPUBLIC

During the dissemination year of the thematic network THENAPA in the Slovak Republic numerous activities and initiatives took place:

Presentations at the international conferences:

- “Integration possibilities of persons with disability into Sport for All in Slovakia”: 2nd FIEP European Congress, Serbia 2.-5. Sept.2004
- “ Transfer of Cultural values to the system os Adapted Physical Education”: International scientific symposium, Bratislava nov.2003
- “Ways to the democracy in Education”: international conference, Modra, Slovakia, Dezember 2003

Translation of the THENAPA summaries on the two reports, as well on the basic text from the CD-ROM ADAPT – preparation of study materials for students, coaches for compulsory education at the faculty and for volunteers education in sport union

Printing a book with various problems of APA, processing a student thesis,

Preparation new study plans for pupils with impairments

1. at secondary and high schools for Adapted Physical
2. Education and for Integrative Physical education: This
3. materials approved by Ministry of Education and put it in schools in Slovakia

The results of the dissemination showed that between the problems, which can result to development of integration in sport for all process belonging: to increase the interest of sport activities among the women with disability, to

prepare adequate teaching and methodical materials for volunteers: goals for Sport Unions

APA is objective reality in which the term “culture “is transformed. We clarified terms: cultivation of people with disability, cultural motion, cultural barriers, in praxis important relationships: people with disability- society- sport- culture: goals for teachers, experts

Physical education teachers have a good pedagogical environment for complete stint to students. Faculty of physical education and Sport prepared new curriculum for students, new study fields: sport and health with specialisation sport for disabled, teaching of P.E with pupils with impairments, disabilities is realised in accordance with study plans
